

Trusted above all.™

February 20, 2023

To Our Valued Customers:

Viking is committed to keeping you informed of challenges impacting the fire protection industry. Due to increasing costs, Viking will implement **an increase of 5-15% on our foam hardware products on April 1, 2023.**

This price increase affects proportioning devices, discharge devices, and other components but does not impact our foam concentrates.

We continue to work diligently to offset these rapidly rising costs, provide adequate notice, and improve delivery schedules.

Sincerely,

The Viking Corporation
