

InstaSeal® technology eliminates need for wrenches and sealants

The game-changing InstaSeal® system, which centers around a gasketed welded pipe outlet and the revolutionary “Torque-Assist” protective sprinkler cap, promises to streamline the installation process for sprinkler fitters across the industry! Viking SupplyNet and Viking Fabrication Services offer a fabricated pipe featuring InstaSeal fittings compatible with Viking sprinklers that are equipped with the Torque-Assist cap.

Features and advantages of InstaSeal systems:

- No thread tape or sealant needed, eliminating mess and additional time-consuming installation steps
- Eliminating heavy wrenches from the installation process significantly reduces sprinkler fitter fatigue
- InstaSeal products are cULus Listed and FM Approved
- Advanced Torque-Assist cap technology allows for hand-tightening of the sprinkler, reducing the risk of damage during installation and making it easier than ever to install
- Use Viking SupplyNet’s fabricated pipe featuring InstaSeal fittings to ensure perfect compatibility every time
- Maximum working pressure of 175 psi (12 bar)

Select Viking sprinklers are compatible with revolutionary InstaSeal® technology through the addition of new Torque-Assist caps. Make sure to look for the compatibility icon to ensure the correct sprinklers are being ordered for a job requiring InstaSeal technology.
