

Maximize flexibility with UL Listed Data Center Upgradeable Systems

The Data Center Upgradeable System is a pre-trimmed dry system riser designed for quick and easy field conversion to a preaction system—without replacing the main valve. It features an A-1 Differential Valve and includes all key system components in one packaged solution, designed for applications like data centers. Available in sizes from 1-½" through 8", the Data Center Upgradeable System is cULus Listed and offers flexibility for versatile spaces.

Features and advantages of Viking's Data Center Upgradeable System:

- Utilizes a Viking Model VXD Deluge valve and trim as a dry pipe system that can be easily upgraded to a single- or double-interlock preaction system
- Includes unions at release for easy preaction conversion
- Features a robust 6:1 differential design with the A-1 Differential Valve to control the water supply to the sprinkler system piping that is equipped with closed sprinklers
- Each riser includes key system components—valve, trim, check valve, pressure switches, drains and gauges—ready for install right out of the box
- PTR trim offered with or without additional isolation butterfly valve
- Multiple sizes available to meet your unique system needs

For more information, please contact your Viking sales representative or visit our website at vikinggroupinc.com.

General reference only. Prior to the design, layout, and/or installation of any sprinkler system, please refer to Viking's technical documentation and consult with the AHJ.

TECHNICAL SPECIFICATIONS

| | |
|-----------------------------|--|
| Model Number: | Model VXD Data Center Upgradeable System |
| Listings/Approvals: | cULus Listed |
| Sizes: | 1-½", 2", 2-½", 3", 4", 6", 8" |
| Finish: | Black Epoxy Polyester Coating |
| Material: | Ductile Iron |
| Trim Offered: | PTR w/wo isolation butterfly valve and separate conversion kit required for upgrade to preaction |
| Item Price Group: | V406 |
| Occupancy/Hazard: | Commercial |
| Technical Datasheet: | F_040125 |
