

Connect and Protect with nVent CADDY Solutions

Fire sprinkler installations can be complex, particularly in seismic areas. nVent CADDY products help contractors save time and lower the total cost of the installations.

Our hanging, bracing and support solutions are known for their high quality, superior technical performance and simple, intuitive installations

Seismic Solutions

nVent CADDY Seismic Solutions protect people, property and equipment during and after a seismic event by ensuring business continuity and continued operation of critical infrastructure and services.

nVent CADDY's innovative seismic bracing solutions reduce the total installed cost, and the provided installation technique training and guidance ensures seismic code and standards compliance.

Hanging & Support Solutions

Our innovative system of Fire Sprinkler hangers and supports will provide tangible efficiency gains, from the pump room to the final branch lines. Every hanger and support has been meticulously designed with the end-user experience in mind. These engineered solutions generate measurable results while maintaining the highest quality possible.

Our industry-leading solutions include:

- A telescoping pipe stand that comes out-of-the-box ready to install, and reduces the installation time of a complete assembly by up to 80%.
- A vertical riser clamp that combines 3 parts into 1: standard riser; short ear riser; stand-off, and installs up to 60% faster than traditional methods.
- A disruptive pipe hanger that revolutionizes the installation of pipe, generating efficiency gains of 50% or more.

Throughout the entirety of the system, nVent CADDY is your trusted partner for providing a safe, fast, and easy installation.

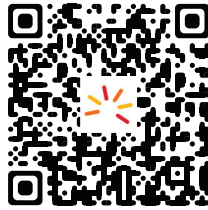

nVent BIM Library

The nVent BIM Library empowers clients with data-rich 3D modeling capabilities that bring projects to life with enhanced visualization and real-time realism. Its advanced clash detection feature quickly identifies and resolves design conflicts, reducing on-site errors and maximizing cost savings. Combined with comprehensive design, support, and service available whenever and wherever needed, the nVent BIM Library ensures seamless project execution and exceptional results.

nVent CADDY strives to be a supplier of choice for **BABA compliant products** for our customer's project needs.
