- **For Use on Standard Trim**
  - 12662-1

- **For Use on Brass Trim**
  - 12662-2

Verify that the valve is trimmed with Conventional Trim installed according to the current Conventional Trim Chart for the Valve used.

Install the Pneumatic / Pneumatic Release Module using the connections provided and as shown in Figure 2 on this page.

*Standard Conventional Trim sets for Viking Deluge Valves consist of galvanized nipples and fittings.

**Refer to Technical Data describing the Halar® Coated Deluge Valve and the Viking Foam Systems Engineering and Design Data book for applications where brass trim is recommended.

**Note:** Nipple lengths for brass trim may vary from those shown on this Trim Chart.

**Note:** Package includes pre-assembled Pneumatic / Pneumatic Release Module and ½” NPT nipples and unions to connect the module to Conventional Deluge Valve Trim.

**ORDER DELUGE VALVE, TRIM, AND RELEASE MODULE TRIM SEPARATELY.**
