1. DESCRIPTION

Viking QREC Concealed Horizontal Sidewall Sprinkler VK680 is a small high-sensitivity solder link and lever sprinkler designed for installation on concealed pipe systems, where the appearance of a smooth wall is desired. The fast response operating element and special flow shaper characteristics meet the challenges of quick response extended coverage standards.

The sprinkler is hidden from view by a low profile, small diameter cover plate installed flush to the wall. The cover plate is available in several decorative finishes to meet design requirements. The two-piece design allows installation and testing of the sprinkler prior to installation of the cover plate. After the system has been tested and wall finish has been applied, the push-on design of the cover plate assembly allows easy installation of the cover plate with up to 1/4” (6.4 mm) adjustment.

Ordering Information: (Also refer to the current Viking price list.)

Viking QREC Concealed HSW Sprinkler VK680 and Cover Plate Assembly must be ordered separately:

**Sprinkler:** Part No. 17114AC (includes a 165 °F (74 °C) temperature rated sprinkler with a protective plastic cap covering the unit).

**Cover Plate Assembly:** Base Part No. 16207 (3-5/16” diameter)

Specify finish and temperature rating of the cover plate assembly by adding the appropriate suffixes for the finish and the cover temperature rating to the base part number:

- **Finish Suffix:** Polished Chrome = F, Painted White = M-/W, Painted Ivory = M-/I, Painted Black = M-/B
- **Temperature Suffix:** 135 °F (57 °C) = A

For example, cover 16207 with a Polished Chrome finish and a 135 °F (57 °C) temperature rating = 16207FA.

**Available Finishes And Temperature Ratings:** Refer to Table 1.

**Accessories:** (Also refer to the Viking website.)

- **Sprinkler Wrenches:**
  - A. Heavy Duty Wrench Part No. 16208W/R (available since 2010)
  - B. Head Cabinet Wrench Part Number 16267 (available since 2010)
  - C. Optional Large Concealed Cover Plate Installer Tool Part No. 14867 (available since 2007)

**Requires a ½” ratchet (not available from Viking).

**Ideal for sprinkler cabinets.**

**Sprinkler Cabinet:** Part No. 01731A (available since 1971)

4. **INSTALLATION**

Refer to appropriate NFPA Installation Standards.

5. **OPERATION**

During fire conditions, when the temperature around the sprinkler approaches its operating temperature, the cover plate detaches. Continued heating of the exposed sprinkler causes the fusible element to disengage, releasing the sealing assembly. Water flowing through the sprinkler orifice strikes the flow shaper, forming a uniform spray pattern to extinguish or control the fire.

6. **INSPECTIONS, TESTS AND MAINTENANCE**

Refer to NFPA 25 for Inspection, Testing and Maintenance requirements.

7. **AVAILABILITY**

The Viking Model VK680 Sprinkler is available through a network of domestic and international distributors. See The Viking Corporation web site for the closest distributor or contact The Viking Corporation.

8. **GUARANTEE**

For details of warranty, refer to Viking’s current list price schedule or contact Viking directly.
