1. DESCRIPTION
Viking Horizon® Quick Response Flush Pendent Sprinklers are small, flush, solder link and lever spray sprinklers. Designed for use with concealed piping, the units are mounted flush to the ceiling with the fusible link exposed. The sprinklers are available with a Polished Chrome or White Polyester finish with four styles of ceilings rings (see Figure 1), which allow up to ¼" (6 mm) of adjustment. The standard 2-11/16" (68 mm) diameter ceiling rings are available in a “thread-on” style for stability, or in a “push-on” style for ease of installation. A 3" (76 mm) diameter “push-on” ceiling ring and a 3-1/4" (83 mm) diameter “thread-on” ceiling ring are also available. The two-piece design allows installation and testing of the sprinklers prior to ceiling installation. The ceiling ring can be removed and reinstalled, allowing removal of ceiling panels without shutting down the sprinkler system and removing the sprinkler.

2. LISTINGS AND APPROVALS
- **cULus Listed**: Category VNIV
- **FM Approved**: Class 2020
- **NYC Approved**: City of New York Board of Standards and Appeals, Calendar No. 219-76-SA
- **LPCB Approved**: Certificate number 096e/08
- **CE Certified**: Standard EN 12259-1, EC-certificate of conformity 0832-CPD-2001 and 0832-CPD-2024
- **MED Certified**: Standard EN 12259-1, EC-certificate of conformity 0832-MED-1003

Refer to the Approval Charts and Design Criteria in this data page for Listing and Approval requirements that must be followed.

3. TECHNICAL DATA
**Specifications:**
Available since 1988.
Minimum Operating Pressure: 7 psi (0.5 bar)*
Maximum Working Pressure: 175 psi (12 bar)
Factory tested pneumatically to 95 psi (6.55 bar)
Thread size: 1/2" (15 mm) NPT
Nominal K-Factor: 5.6 U.S. (80.6 metric†)

*metric K-factor measurement shown is when pressure is measured in Bar. When pressure is measured in kPa, divide the metric K-factor shown by 10.0.

Overall Length: 2-9/16" (65 mm)

**Material Standards:**
- Sprinkler Body: Brass UNS-C84400
- Body Cap: Stainless Steel UNS-S30400 or UNS-S30500
- Cover: Stainless Steel UNS-S43000
- Deflector: Copper UNS-C19500
- Deflector Pins: Stainless Steel UNS-S30300
- Button: UNS-C23000 H55-H80
- Compression Screw: Brass UNS-C36000
- Element Assembly: Beryllium Nickel and Eutectic Solder
- Levers: Stainless Steel UNS-S31600
- Lever Bar: Copper Alloy UNS-C72500
- Belleville Spring Sealing Assembly: Nickel Alloy, coated on both sides with PTFE Tape
- Ceiling Ring: Cold Rolled Steel UNS-G10080 or Brass UNS-C26000

**Ordering Information:** (Also refer to the current Viking price list.)
Viking Horizon® Quick Response Flush Pendent Sprinklers and Ceiling Rings must be ordered separately.
Sprinklers: Base Part No. 06702B or 11487
Order the Horizon® Quick Response Flush Pendent Sprinkler by first adding the appropriate suffix for the sprinkler finish and then the appropriate suffix for the temperature rating to the sprinkler base part number.
Finish Suffix: Polished Chrome = F or White Polyester = M-/W
Temperature Suffix (°F/°C): 165°/74° = C
For example, sprinkler VK402 with a Chrome finish and 165 °F/74 °C temperature rating = 06702BFC.
Ceiling Rings:
Base Part No. 07027 “push-on” style with a 2-11/16” (68 mm) diameter
Base Part No. 07626 “push-on” style with a 3” (76.2 mm) diameter
Base Part No. 06919B “thread-on” style with a 2-11/16” (68 mm) diameter
Base Part No. 06905B “thread-on” style with a 3-1/4” (82.5 mm) diameter
Specify the finish of the ceiling ring: Polished Chrome = F, White Polyester = M-/W
For example, ceiling ring 07027 with a Polished Chrome finish = 07027F.
Available Finishes And Temperature Ratings:
Refer to Table 1.
Accessories: (Also refer to the Viking website.)
Sprinkler Wrenches*:
A. Heavy Duty Part Number 08336W/B (available since 1983), or
B. Light Duty Part Number 10366W/B** (available since 1998)
*Requires a ½” ratchet (not available from Viking).
**Ideal for sprinkler cabinets.
Sprinkler Cabinet: Part No. 01731A, Capacity: six (6) sprinklers (available since 1971)

4. INSTALLATION
Refer to appropriate NFPA Installation Standards.

5. OPERATION
The concealed deflector is held inside the body of the sprinklers until the eutectic metal solder link is fused.

6. INSPECTIONS, TESTS AND MAINTENANCE
Refer to NFPA 25 for Inspection, Testing and Maintenance requirements.

7. AVAILABILITY
Viking flush style sprinklers are available through a network of domestic and international distributors. See The Viking Corporation web site for the closest distributor or contact The Viking Corporation.

8. GUARANTEE
For details of warranty, refer to Viking’s current list price schedule or contact Viking directly.

HORIZON® QUICK RESPONSE FLUSH PENDENT SPRINKLERS
VK402 AND VK413 (K5.6)

TECHNICAL DATA

DESIGN CRITERIA - UL
(Also refer to Approval Chart 1 above)

**cULus Listing Requirements:**
Horizon® Quick Response Flush Pendent Sprinklers are cULus Listed for installation in accordance with the latest edition of NFPA 13 for standard coverage pendent spray sprinklers as indicated below:

- For hazard occupancies up to and including Ordinary Hazard, Group II.
- Protection areas and maximum spacing shall be in accordance with the tables provided in NFPA 13. Maximum spacing allowed is 15 ft. (4.6 m).
- Minimum spacing allowed is 6 ft. (1.8 m) unless baffles are installed in accordance with NFPA 13.
- Minimum distance from walls is 4 in. (102 mm).
- Maximum distance from walls shall be no more than one-half of the allowable distance between sprinklers. The distance shall be measured perpendicular to the wall.
- The sprinkler installation and obstruction rules contained in NFPA 13 for standard coverage pendent spray sprinklers must be followed.

**LPCB and CE Approval:**
Horizon® Quick Response Flush Pendent Sprinklers are LPCB approved and CE marked for installation in accordance with the latest edition of EN12245 and the LPC Rules for Automatic Sprinkler Installations including systems for Life Safety.

**IMPORTANT:** Always refer to Bulletin Form No. F_091699 - Care and Handling of Sprinklers. Also refer to Form No. F_080614 for general care, installation, and maintenance information. Viking sprinklers are to be installed in accordance with the latest edition of Viking technical data, the appropriate standards of NFPA, LPCB, APSAD, VdS or other similar organizations, and also with the provisions of governmental codes, ordinances, and standards, whenever applicable.
**Desired criterion - FM**
(Also refer to Approval Chart 2 above)

**FM Approval Requirements:**

Horizon® Flush Pendent Sprinkler VK402 is FM Approved as a quick response Non-Storage flush pendent sprinkler as indicated in the FM Approval Guide. For specific application and installation requirements, reference the latest applicable FM Loss Prevention Data Sheets (including Data Sheet 2-0). FM Global Loss Prevention Data Sheets contain guidelines relating to, but not limited to: minimum water supply requirements, hydraulic design, ceiling slope and obstructions, minimum and maximum allowable spacing, and deflector distance below the ceiling.

**NOTE:** The FM installation guidelines may differ from cULus and/or NFPA criteria.

**IMPORTANT:** Always refer to Bulletin Form No. F_091699 - Care and Handling of Sprinklers. Also refer to Form No. F_080614 for general care, installation, and maintenance information. Viking sprinklers are to be installed in accordance with the latest edition of Viking technical data, the appropriate standards of NFPA, FM Global, LPCB, APSAD, VdS or other similar organizations, and also with the provisions of governmental codes, ordinances, and standards, whenever applicable.

---

**Footnotes**

1 Part number shown is the base part number. For complete part number, refer to current Viking price list schedule.

2 Metric K-factor measurement shown is when pressure is measured in Bar. When pressure is measured in kPa, divide the metric K-factor shown by 10.0.

3 This chart shows the FM Approvals available at the time of printing. Other approvals may be in process. Check with the manufacturer for any additional approvals.
