PILOT REGULATING FLOW
CONTROL HORIZONTAL TRIM
2-1/2" & 3" (DN65 & DN80) MODEL J
FLOW CONTROL VALVE
Form No. F_101513    19.07.11    19.1

General Notes:
• Valve must be trimmed as shown. Any deviation from trim size or arrangement may affect the proper operation of the valve.
• Dimensions in parenthesis are millimeters.
• Viking uses ANSI tee designations (large outlet on run, small outlet on run, side outlet) in all trim call-outs.

Note 1: Release System connection.
Note 2: Alarm Connections: Connect alarm line piping to 3/4" (20 mm) NPT outlet. When using a Water Motor Alarm, a strainer is required. 1/2" (15 mm) NPT outlet is for electric Alarm Pressure Switch.
Note 3: Optional non-interruptible connection for Alarm Pressure Switch to activate electric alarm panel. Note: After the flow control valve trips, this location cannot be shut off. Alarms may operate until the outlet chamber of the flow control valve is de-pressurized below the set point of the Alarm Pressure Switch.
Note 4: Viking Drain Check Valve is manufactured with a 0.067" (1.7 mm) orifice to allow alarm line to drain. Do not substitute. Check label for proper orientation.

This Trim Chart is for use with the following Viking Trim Sets

<table>
<thead>
<tr>
<th>Valve Size</th>
<th>Galvanized Trim Part No.</th>
<th>Brass Trim Part No.</th>
</tr>
</thead>
<tbody>
<tr>
<td>2-1/2&quot; &amp; 3&quot; (DN65 &amp; DN80)</td>
<td>14774-1</td>
<td>14774-2</td>
</tr>
</tbody>
</table>

This trim is for use with the following Release Module Trim Kits

<table>
<thead>
<tr>
<th>Release Type</th>
<th>Galvanized</th>
<th>Brass</th>
</tr>
</thead>
<tbody>
<tr>
<td>Electric</td>
<td>10830</td>
<td>10832</td>
</tr>
</tbody>
</table>

Note: Nipple lengths for brass trim may vary from those shown on this Trim Chart.
