The **COLLECT_{AN}DRAIN[®]** Family of products are auxiliary “low point” drain and/or condensate collecting assemblies available in several configurations to meet and exceed NFPA 13 and NFPA 25 requirements for drainage in dry and preaction sprinkler systems.

COLLECT_{AN}DRAIN[®] Model 5300ALBV

The COLLECT_{AN}DRAIN[®] Model 5300ALBV is AGF's base model auxiliary drain combined with the 5100ALBV Water Detection Alarm. They are designed to meet NFPA 13 and NFPA 25 requirements.

The Model 5300ALBV comes fully assembled using galvanized or black steel components and high-quality quarter turn ball valves. The M5300ALBV features the M5100ALBV Water Detection Alarm that emits a local audible and visual alert when water is detected in the auxiliary drain and is equipped with remote Fire Control Panel and/or Building Management System notification capabilities. Locking Kit and 110 volt plug-in features optional.
