

Viking Fabrication Services | Industry Leading Quality

The best solution is a complete solution. That's why Viking SupplyNet combines full-service fabrication services with the industry's most comprehensive range of fire protection products.

We sweat the details so you don't have to! Our delivery trucks are equipped with integrated forklifts for easy unloading at even the most difficult job sites, and fabricated pipe is clearly and systematically bundled for easy identification and installation.

Our wide range of capabilities include:

- Threading, grooving, end of pipe preparation, and hanger assembly
- Black or galvanized material welding
- Complete stocklisting and estimating services using the latest design software
- Active weld quality monitoring using innovative technology
- 15 full-service fabrication locations throughout the United States

To learn more, contact your local Viking SupplyNet!

One contact gets the job done.

From our processes, our practices and to our quality control, we take steps to ensure that our quality is at an industry-leading standard.

Fabrication Focus

Viking has recently updated and standardized its Welder Training Program, consistently upgrades tools and equipment, and much more.

Network Expansion

As of 2021, Viking has added a new fabrication location in Austin, TX and consistently features its state-of-the-art welding tools and technology to meet customer demand.

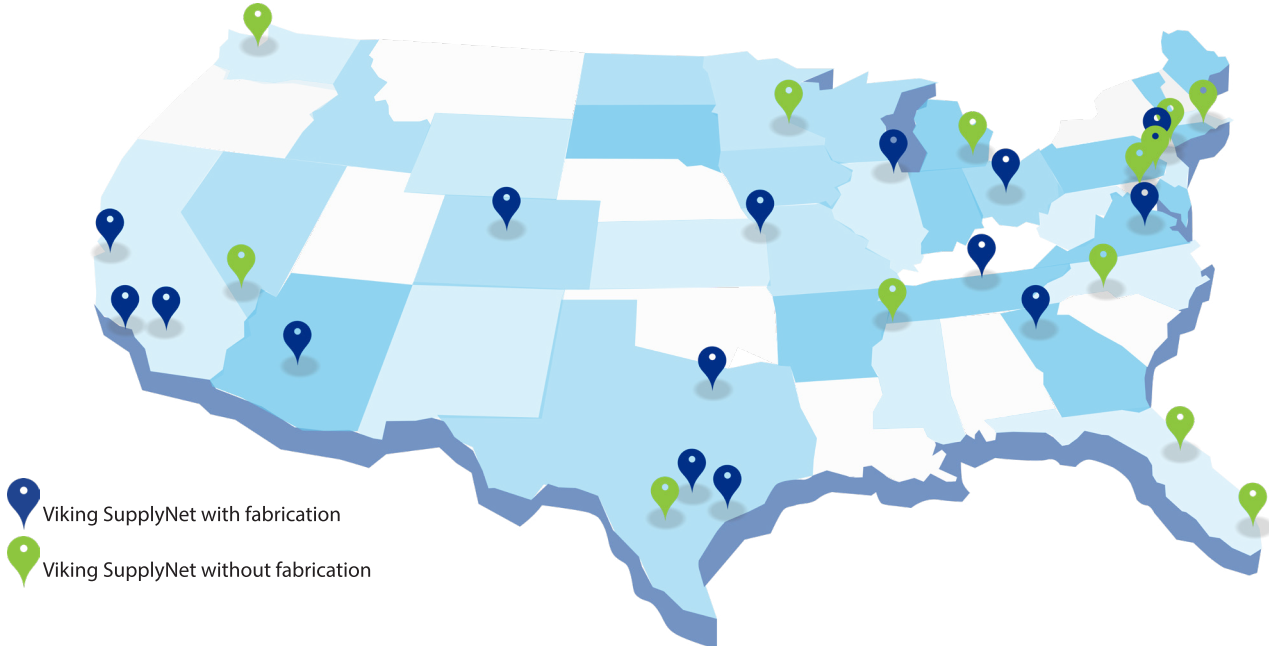

Order Delivery

Viking brings your order directly to the job site, and our trucks come equipped with customer-accessible GPS tracking by specific order.

Trusted above all.™
