FlexHead® SuperFlex®
Flexible Fire Sprinkler Drops

The ultimate solution in flexible fire sprinkler drops.

**Description**
No need to measure or count the number of bends, no leaks, no worries! SuperFlex provides all the flexibility needed for an error-free installation.

*Approved with MPT24BKT3, ADO16BKT3 and ADO24BKT3 brackets*

**Features & Benefits**
- Only **fully welded** commercial fire sprinkler drop in the industry
- UL listed for tight 2-inch bend radius
- Increased bends create more flexibility during installation
- Hose can be bent up to 12 bends* per UL listing

*12 bends are only applicable for the 6 ft. hose. Please reference chart on the back for additional UL & FM specifications.

Please contact your local ASC Engineered Solutions sales representative for more information about the Flexhead Superflex product.
**Superflex Specification Sheet**

**1” Internal Diameter (I.D.) Hose Series**

**Notes:**

- **Model Numbers:** The “SF” designates SuperFlex Hose Series. The “50” designates ½” Outlet Hose Series. The “75” designates ¾” Outlet Hose Series.
- **Max Ambient Temperature Rating on all model numbers is 300º F (148º C).**
- **20XSF, SuperFlex Hose, is UL listed with MPT-24–BKT1, ADO16BKT3 and ADO24BKT3 Brackets with largest k-factor of 16.8.**
- **Equivalent Lengths are shown with maximum number of 90° bends at the minimum bend radius per agency. 2 - 45° or 3 - 30° bends equal 1 - 90° bend. Different values were obtained by FM and UL due to the difference in minimum bend radius, testing protocol and calculation methods. Please see individual standards for more information relative to friction loss (equivalent length of pipe).**
- **FM equivalent length calculation includes sprinkler head friction loss.**
- **See listing(s) approval agency for the latest approval details.**
